

Data Specification for current Air Quality Health Index range and forecast

The current Air Quality Health Index range and forecast are provided by ENVIRONMENTAL PROTECTION DEPARTMENT (EPD). This web service returns up-to-date data in RSS format. RSS is the abbreviation of "Really Simple Syndication" or "Rich Site Summary", which is an XML-based format for gathering and sharing content from websites, including that from EPD, containing headlines, summaries, and links to the full articles.

Item	Description	Note
title	Title of the data resource.	
link	URL of Air Quality Health Index.	
description	Description of the data resource.	
language	Language of the data resource.	English Version: en-us Traditional Chinese Version: zh-tw Simplified Chinese Version: zh-cn
copyright	Copyright owner of the data resource.	
webMaster	Email address of the web master.	
pubDate	Publication date of the data resource.	Format similar as below: Tue, 16 Oct 2018 11:30:00 +0800
lastBuildDate	Last build date of the data resource.	Format similar as below: Tue, 16 Oct 2018 11:30:00 +0800
item	Current Air Quality Health Index range and forecast in RSS format.	English Version Example: <item> <title>HKSAR Air Quality Health Index at : Wed, 12 Dec 2018 16:30:00 +0800 Current Condition : </title> <link>http://www.aqhi.gov.hk/en.html</link> <guid isPermaLink="true">http://www.aqhi.gov.hk/en.html</guid> <description><![CDATA[<p>General Stations: 2 to 3 (Health Risk: Low)</p><p>Roadside Stations: 3 (Health Risk:
